

*10-night expedition voyage
departing 26 December 2008
from Sydney, Australia.*

From \$12,790*

Photo: Eiven Bell

Departing from Ushuaia, at the southern tip of Argentina, we head to the Antarctic Peninsula, a pristine world of giant blue icebergs, majestic mountains and vast icy plains. The bays and islands of the peninsula provide perhaps the most dramatic scenery to be found on earth and are home to amazing concentrations of wildlife – Weddell and elephant seals, skuas, giant petrels and massive rookeries of chinstrap, gentoo and Adelie penguins.

We will spend as much time off the ship as possible exploring on the ice and cruising in Zodiacs. The truly adventurous can even spend a night camping on the ice!

**Join us aboard the *Peregrine Voyager*
for this 10-night *Antarctic Explorer*
voyage and a wildlife and wilderness
adventure of a lifetime.**
